Our Heartiest Wishes to Our Readers, Supporters and  
All the Stakeholders of Maritime Industry on the Occasion of  
74th Happy Republic Day 2023 of Our Nation

### INSA holds 3rd Technical Paper Competition

The 3rd Technical Paper Competition, organized by the Research & Training Committee of the Indian National Shipowners Association (INSA), was held on January 14, 2023, on a web platform. The theme of the year 2022 competition was "Socio-Economic Impact of Futuristic Technologies for the Marine Industry."

With the objective of developing a concept of research and innovation among the students currently engaged in various academic programs in the maritime sector, INSA started a Technical Paper Competition in 2020 held at year-end. 58 high-quality technical papers were received for the year 2022, out of that 10 papers were short-listed for this event, to finally select the top 5 Winning Teams.

Mr. Sunil Kumar

Mr. Anil Devli

On behalf of the Research and Training Committee of INSA, Mr. Sunil Kumar, CTO, and Head of the T&A Department at The Great Eastern Shipping Co. Ltd, warmly welcomed all guests as the Master of Ceremony. The CEO of INSA, Mr. Anil Devli, then delivered the welcome address, expressing his appreciation for the presence of dignitaries, candidates from various Maritime Training Institutes, and judges for their challenging work in selecting the Paper Presentations.

Mr. Ajith Kumar Sukumaran

The event was inaugurated by the Chief Guest, Mr. Ajith Kumar Sukumaran, Chief Surveyor-cum - Additional Director General of Shipping (Engg.) of the Government of India. He praised the initiative taken by INSA in encouraging young people to present technical papers, show interest in innovation, and think creatively. He also noted that the shipping industry is going through a major transition in the coming years, with a focus on reducing greenhouse gas emissions, decarbonization, and the adoption of digitalization, which are both technical and economic challenges. He wished INSA and

the participants success in the event and great learning experiences.

Dr. B. K. Saxena, Chairman of INSA's Research & Training Committee, praised Mr. Sukumaran for his succinct and informative speech on various aspects of shipping. He noted that

The second runners-up were Mr. Om Dhamdhare and Mr. Om Dhamdhare from Tolani Maritime Institute, Pune. The first runners-up were Mr. Ankush Mangal and Mr. Saurabh Rawat from the International Maritime**

**Institute.** The **FIRST POSITION** was awarded to **Mr. Karan Rautela and Mr. Manav Gurjar from the Tolani Maritime Institute, Pune.** Mr. Birwadkar congratulated all participants for their challenging work and dedication.

Mr. L P Tripathy

Winners 1st Position-Cdt Karan Rautela & Cdt Manav Gurjar

Lastly, Mr. Lokanath Tripathy, Head of QST at Greatship India Ltd, proposed a Vote of Thanks

and appreciated the efforts of all the concerns in organizing this successful event.

## MARINE NEWS

NEW DELHI  
Sagar Sandesh News BUREAU

There is a clear opportunity for India as global companies

look to diversify supply chains, and improvement in infrastructure expected in the coming years could make the country a preferred destination, said Michael Peter, chief executive officer (global) of Siemens Mobility.

## India to Be a Preferred Destination for China+1, Says Siemens Mobility CEO

Michael Peter, chief executive officer (global) of Siemens: "I do see a clear opportunity for countries like India to be very successful in the surrounding because we all learned it's better to stand on two or three, four feet versus on one foot to have more resilience in the system."

"I do see a clear opportunity for countries like India to be very successful in the surrounding because we all learned it's better to stand on two or three, four feet versus on one foot to have more resilience in the system," Peter told ET.

**"Improvements in India's infrastructure are expected over the coming years. That will make it a**

preferred destination for China plus one strategy," he said.

On slowing growth in advanced economies, Peter said the market for mobility has remained stable as governments are trying to pump in money on future-oriented areas in technology and trains over the next 30 years.

"We've based our strategy on megatrends

like fighting against global warming, having clean technology, making a difference through digitalisation, providing solutions for aging populations, (and) increasing mobility needs," he said. "This has not really changed with Covid and is coming back stronger now after a two-year break on it."

Peter said it had been a "juggling game" to keep the logistics chain up with semiconductor shortage following supply issues, but now it is getting better.

Sunil Mathur, managing director and CEO of Siemens Limited (India), said the local market being developed here makes India is "hugely attractive". "Domestic market you build in the base infrastructure here... can then be expanded on and built on for global markets," he said.
