Ocean One Ship Management: Pioneering Non-Traditional Ways in the Maritime Sector

Ocean One Ship Management is a relatively new player in the maritime industry, having been established on 31 May 2019. However, in just a short time, the company has been making waves with its innovative and non-traditional ways of operating. With offices in Mohali, Mumbai, and Manila, Ocean One is a global company that caters to the varied needs of its clients.

One of the key challenges the company faced early on, was the scepticism of stakeholders about its base in Mohali, India. However, Ocean One proved to be a pioneer in processing crew joining online, with other companies following suit after the Covid-19 lockdown. This move allowed Ocean One to streamline its operations and increase its efficiency, making it a more attractive option for clients looking for reliable partners.

Despite being a relatively new player in the industry, Ocean One

Highly motivated and trained crew join on all types of ships

has always utilized new-age and non-traditional ways of operating. For instance, the company has been leveraging technology to synchronize and ease its operations. With its innovative and non-traditional approach, Ocean One is always ahead of the curve, making it a valuable partner for clients looking for innovative and customized solutions.

In July 2021, Ocean One commenced operations from its Manila branch, further expanding its global reach and services. Thereafter the company opened its Mumbai branch in September 2021, which raised eyebrows in the industry. While larger companies like K-Line were shutting down their branch office in Chennai, Ocean One ventured into a co-working space in Mumbai. The industry watched closely as Ocean One successfully operated from the co-working space, paving the way for other companies to replicate its working model.

The company takes pride in taking good care of their seafarers, and their reputation for doing so precedes them in the market. It is no surprise that their seafarers enjoy being part of the team, which is evident in their win for the "best employer - gas tanker fleet (small segment)" award in November 2022. This award has further cemented its position as a trailblazer in the maritime sector. The award recognizes Ocean One's commitment to creating a positive and supportive work environment for its employees, which translates into better services for its clients.

With a wide range of vessels, from LNGs to Oil Tankers to Container fleets, Ocean One is well-equipped to cater to the

varied needs of its clients. The company's ability to leverage technology and non-traditional ways of operating allows it to provide customized solutions that are tailored to the specific needs of its clients.

Ocean One's success story is a testament to its willingness to take risks, embrace change, and continuously innovate. As the industry continues to evolve, Ocean One Ship Management remains

steadfast in its commitment to provide exceptional services to its clients, driven by its passion for excellence and commitment to pioneering non-traditional ways. With its innovative approach and commitment to excellence, Ocean One is well-positioned to become a leading player in the maritime industry. For more detail visit www.oceanoneshipmanagement.com
